Mrs. Daniela KINKEL PR manager

The Research Association of the German Food Industry (FEI) is a non-profit, registered association supporting research projects in all fields of food science, food technology and nutritional science. Up today the FEI is the sole research association spanning almost all branches and disciplines of the food and drink industry in Germany. The FEI connects economy and science: It coordinates yearly about 100 cooperative research projects, organises scientific conferences and publishes different media for experts. 60 enterprises, 55 industrial branch associations and 120 research institutes are organised within the Research Association of the German Food Industry (FEI). The financing is provided by private funding (enterprises and industrial associations) and public funding (Federal Ministry of Economic Affairs and Energy).

Droptail.

Droptail. The very special cocktail. Developed from the daring idea to offer guests spontaneously an excellent taste experience and to counteract food waste at the same time. Accomplished with the piquantly-sour flavour of rhubarb, the bitter taste of gin and the refreshing effervescence of lemon. Finished with the unmistakable aroma of rosemary and the coated aromatic spirits. Created for the demanding taste of spontaneous gourmets. With its all-unifying composition 'Droptail' revolutionises the world of cocktail pleasure. Enchant your guests with this ice cube, which offers, shortly after you have poured water over it, everything you require from a perfectly arranged rhubarb cocktail. Turn your back to stale mix-components from your house bar and experience how the alcohol-filled drops melt on your tongue and how they come together leading to an excellent taste experience in your mouth. This eye-catcher offers every reason for parties and celebrations. Droptail and you will feel the drop!
